Famiglia di lampade, la cui campana in alluminio tornito e ritagliato al laser richiama un intreccio vegetale, il giunco delle nasse dei pescatori. Attraverso la trama delle forature la luce si diffonde nell'ambiente.

This family of lamps features an aluminium bell-shaped shade with a laser-drilled pattern recalling the woven reed of a fish-trap basket. Through this weave the light diffuses in the room.

DE Es handelt sich um eine Lampen-Familie, deren Glocke aus lasergeschnittenem Aluminium an ein Pflanzengeflecht erinnert, an die Binsen der Fischreusen. Durch das Muster der Öffnungen hindurch verbreitet sich das Licht im Raum.

FR C'est une famille de lampes dont la cloche en aluminium modelé et découpé au laser évoque un enchevêtrement végétal, le jonc des nasses des pêcheurs. À travers la trame des trous, la lumière se propage dans le milieu ambiant.

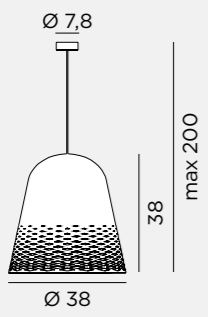

ES Una familia de lámparas, cuya campana de aluminio torneado y cortado con láser se asemeja a un entramado vegetal, el junco de las redes de pesca. La luz se difunde en el ambiente a través de la trama de perforaciones.
